

## **GENERAL DESCRIPTION**

**WrapPro Color PPF** is a patent-pending, high-performance, self-adhesive, color coated aliphatic polyurethane film designed to protect automotive paint, and other surfaces, from harmful effects of stone chips and abrasion. It has exceptional elongation properties for ease of application and this feature allows for single piece installations. **WrapPro Color PPF** is a very low surface energy film designed to resist staining and offers superior environmental resistance and gloss retention. The clear coat employs special elastomeric polymers that allow scratches in the surface to “heal” over time, eliminating the need for frequent polishing to maintain a just-installed appearance.

**WrapPro Color PPF** is coated with ultra-clear, high-performance acrylic adhesive which has excellent adhesion on a broad range of surfaces, while resisting disturbances during installation.

## **TYPICAL APPLICATIONS**

Clear & Color gloss polyurethane for stone chip protection, high wear, and abrasion. Automotive, motorcycle, RV, powersports, bicycle, aircraft and most modes of transportation.

## **SHELF LIFE**

WrapPro recommends **WrapPro Color PPF** be stored at 50°F-90°F, and 40%-60% RH. Film should be used within 2 years of purchase.

## **INSTALLATION**

**WrapPro Color PPF** is designed to be used on any fully cured OEM paint surface. Surfaces that have been repainted are only suitable for installation of the film if the surface was repainted according to recommendations as set by the OEM. WrapPro maintains a complete set of detailed installation instructions, which may be viewed at [www.wrappro.com.hk](http://www.wrappro.com.hk). Generally, a wet application of the product is recommended.

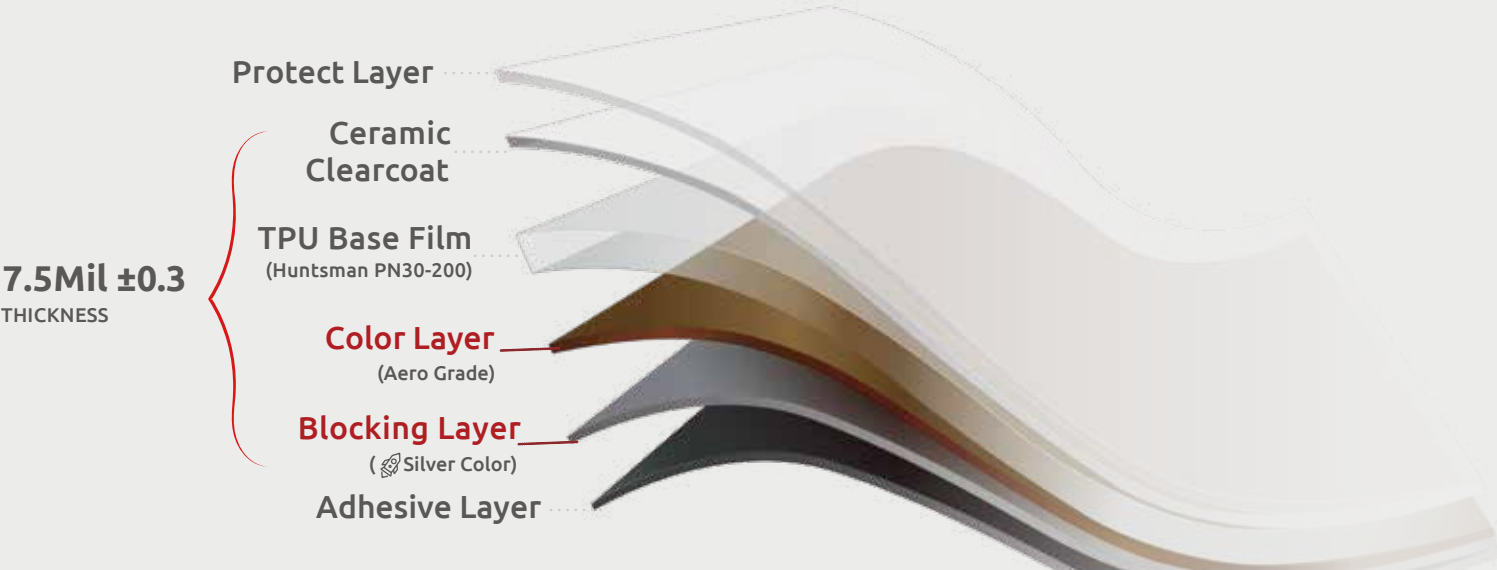

## **WARRANTY**

WrapPro warrants **WrapPro Color PPF** to be free of any manufacturing or workmanship defects for five (5) years from the date of purchase. The warranty does not cover damage to **WrapPro Color PPF** caused by erroneous application, accidents, or collisions, intentional misuse or ordinary wear, nor damage, dents or chips to the protected surface or film caused by impact of rocks or any other debris. WrapPro will replace any film that does not meet this warranty. The replacement of damaged film is the exclusive remedy; liability does not extend to any other damages, incidental, consequential, or otherwise.

## **NOTICE**

The representations of performance and suitability for use contained in this Technical Data Sheet are meant only as a guide. Since only the user is aware of the specific conditions in which the product is to be used, it is the user’s responsibility to determine whether the product is suitable for that intended use.
